

This month we're rocking out to **Jimmy Choo: The Boutique CD**, a collection of electronically based grooves inspired by world influences such as Jamaica, India and the Middle East, available at the Jimmy Choo boutique. The 10 tracks were written and produced by DJ **Daniel Yeardye**, brother to Jimmy Choo founder

Tamara Mellon ... Montblanc, renowned for its sophisticated writing instruments, has launched its first jewelry collections: Star, Boheme and Profile. Each presents the timeless appeal of Montblanc in a fun and whimsical way ... **Candylicious**, the marvelously colorful Candy Land game come to life, has opened a second location at the edge of Rice Village at 2515 University. A tad larger than the original West Alabama locale, it houses retro candies and toys, a rainbow of 21 colors of M&Ms and signature candy cakes: individually wrapped candy bars fashioned into layer cakes and other shapes ... Our favorite **Frock**, the stylish shop on Persa Street that houses such designers as Black Halo, Thorn and Raven, has moved around the corner to bigger digs. The new address is 2609 Greenbriar #1 ... **Nest & Cot**, a local top shop for your tot's bedding and furniture, has relocated to 2238 Bissonnet, between Shepherd and Greenbriar ... In March, **Indulge** moves down the street and around the corner from its present West Alabama location to a larger space at 2903 Saint Street. Owner **Cynthia Davis** is transforming three metal buildings, to be designed by famed Houston architect — and Cynthia's husband — **Issac Preminger**, to house her collection of bath and aromatherapy products and china. She plans to allocate a whopping 1,600 square feet entirely to her ever-growing inventory of specialty bedding and linens.

Good as Gold

Tom Ford

MATTHEW ROLSTON

Everything Tom Ford touches turns to gold. Witness Ford's first project with Estée Lauder, launching for the holiday season: the sensuous and stunning Youth Dew Amber Nude Limited Edition Fragrance Collection and Amber Nude Limited Edition Makeup Collection. The gold-fluted compacts with amber cabochon closures, based on historical packaging, reunite glamour with the ritual of opening a heavy compact and applying color with a beautiful applicator.
